PATENT OFFICE NOTICES

Trial Voluntary Protest Program

After reviewing the comments received as a result of the Notice of Proposed Rule Making entitled, "Protests to the Grant of a Patent," dated May 15, 1973, published at 911 O.G. 760, the Patent Office has decided to institute a Trial Voluntary Protest Program limited to 2,000 applications.

The underlying purpose of protest proceedings is to assist the Patent Office by bringing the best prior art and information relevant to the patentability of a patent application to the examiner's attention. Occasionally patents are held invalid by the courts because of prior art or other information which was not available or known to the examiner. Protest proceedings are intended to elicit from the public such prior art or other information not cited by the examiner which bears upon the question of patentability.

Several benefits are expected to accrue from protest proceedings. First, patents would have a more meaningful presumption of validity because of appropriate consideration by the examiner of additional evidence submitted by the public. Second, potential competitors of the applicant would benefit from having the opportunity to call to the attention of the Patent Office information that could either prevent a patent from issuing or lead to claims of more restricted scope. Further, the protest proceedings may be helpful in minimizing the more expensive conventional procedure of litigating the question of validity at a later date. Finally, the public would benefit from the resultant strengthening of the presumption of validity of patents granted on applications which underwent protest proceedings and the strengthening of the patent system for its intended purposes.

Since legislation is pending in Congress which would make opposition or protest proceedings mandatory in all allowed applications, it appears appropriate and desirable to gain some experience at this time with a Trial Voluntary Protest Program. The Patent Office would welcome any comments, from those who elect to participate in the program, relative to their experience concerning the effectiveness, costs, etc.

Since the trial program is voluntary and limited to a selected number of applications, no rule changes are contemplated or considered necessary at this time.

Applications Involved

The 2,000 applications involved in the Trial Voluntary Protest Program will include 135 applications allowed in each of the 14 examining groups excluding Group 220, and 110 applications allowed in Group 220, after July 1, 1974. No other applications will be made part of the trial program. The applications in the trial will be limited to the 1970 filing date series and will exclude all reissue, plant, and design applications. Also, applications which have been invoved in proceedings before the Board of Appeals, the Board of Patent Interferences, or the courts will be excluded from the trial program.

Waiver of Confidentiality

A form letter will be sent to the applicant of each of the 2,000 applications involved in the trial. The letter will indicate that the application is one of the selected applications and will afford to applicant the opportunity to participate in the program by filing a voluntary waiver of confidentiality thereby making his application available for protest.

Response to Request for Waiver of Confidentiality

The applicant will have two months after the mailing of the form letter concerning waiver of confidentiality to either (1) file the waiver of his right to keep the application confidential, signed by the applicant, assignee of record, or attorney or agent of record, or (2) indicate that he does not desire to participate in the trial program. A response from the applicant to the form letter will be requested. Such response is considered desirable to allow prompt processing of all 2,000 applications selected for the Trial Voluntary Protest Program. No extension of the two month period will be granted.

If the applicant declines to participate in the program, his application will be forwarded to the Patent Issue Division for mailing of the Notice of Allowance. In these situations no record of the correspondence will be made in the application file. Also, the Patent Office will not keep any records concerning the identity of the particular applications where the opportunity to participate in the program was declined.

If a proper waiver of the right to confidentiality is submitted within two months of the date of the form letter regarding voluntary waiver, the application will be placed in the Trial Voluntary Protest Program.

Following an affirmative response a notice, identifying the application will be published in the Official Gazette similar to that used for patents. The notice will include necessary identifying information, including the examining group to which the application is assigned, an illustrative figure, a representative claim or claims, and a listing of references cited by the Patent Office.

On the date the notice is published in the Official Gazette, the application file will also be made available for public inspection for the duration of the protest period in the examining group and the application will be available in printed form similar to a patent. The printed application will include all the figures and the specification, including claims. All printed applications will be classified and placed in the Patent Office search files. Copies of the printed applications will be available to the public at the prices set by statute for patent copies.

Period for Filing Protest

Protesters will have a period of three months running from date of publication of the noice in the Official Gazette in which to file their protest in the Patent Office. Each protest must be filed in duplicate, and include the grounds which the protester believes have a bearing on the patentability of any claim contained in the published application. If the grounds are based on prior art, the protest should include a copy of the prior art together with an explanation of the relevance of such prior art to the allowed claims. In addition or alternatively, the protester will have the opportunity to comment on the manner in which the prior art of record was applied and raise any other matter which may affect the patentability of the claimed invention. In cases where prima facie evidence is presented as to prior public use or sale of the invention, the public use proceedings set forth in Rule 292 will be used to provide the protester presenting such evidence with an opportunity to be heard. No extension of the three month period will be granted.

Protester Involvement

A protester may elect to either (1) have his identity kept secret and have no further participation in the proceedings or (2) be recognized in the application file and become involved in any future prosecution of the application.

In both instances the protester must initially identify himself and give his address; however, if he elects to forego future involvement, he may identify himself on a cover letter and request that the cover letter not be made of record. In such instances the cover letter will be destroyed upon completion of prosecution when the application is forwarded to either Patent Issue Division or the abandoned files.

Consideration of Protest

The published allowed application files will be retained ruring the protest period in the examining groups. The examining groups will receive all protests filed, acknowledge receipt thereof, and make them of record in the application files. At the end of the period for filing protests, three months after publication in the Official Gazette, those applications in which no protests have been filed will be forwarded to the Patent Issue Division for mailing of the Notice of Allowance, while those applications in which protests have been filed will be referred to the group director for decision as to whether prosecution should be reopened.

If the group director decides that the evidence submitted does not constitute a prima facie showing of non-patentability of any allowed claim, the application will be forwarded to the Patent Issue Division for mailing of the Notice of Allow-

ance. The protesters who elected to participate in subsequent prosecution will be notified that the prosecution has not been reopened, and the applicant will be sent the duplicate copy of all protests. The group director's decision will be final and not subject to petition by any protester.

If the group director decides that the submitted evidence constitutes a prima facie showing of non-patentability of any allowed claim, prosecution of the application will be reopened and the application will be re-examined. The decision to reopen prosecution will be communicated to the applicant by means of an Office action, signed by a primary examiner, rejecting any claim believed unpatentable. The duplicate copy of all protests will be mailed to the applicant with the Office action. Protesters who elected to participate in later prosecution and submitted evidence on which the rejection is based will be identified in the Office action and will also receive copies of this and subsequent Office actions. Other protesters who elected to participate in later prosecution will be notified that prosecution has been reopened, but based on evidence and for reasons other than those submitted by them and that, consequently, no further correspondence will be directed to them. The applicant will normally be given a three month shortened statutory period to respond to the Office action.

RESPONSE TO SUBSEQUENT OFFICE ACTIONS BY THE APPLICANT

As a result of re-exmination of the application, the applicant will be permitted to respond, such as by presenting amended or new claims which will be subject to further consideration by the primary examiner. In order to allow protesters, who submitted evidence on which a rejection in the Office action is based and who elected to participate in later prosecution, to comment upon further proceedings, applicant will be required to serve by mail upon each protester identified in the Office action, a copy of any response, including appeal brief, filed. Indication of such service will be a required component of a complete response. Applicant need only reply to the rejections and objections made in the Office action. There need be no specific response to any other points raised by the protesters.

COMMENT ON APPLICANT'S RESPONSE BY THE PROTESTER

Each protester served will be allowed one month, running from the date applicant's response or brief is received in the Patent Office, to file comments relating thereto. All communications from protesters must be in writing. Examiner interviews with the protesters will not be permitted. No extensions of the one month period will be granted.

CONCLUSION OF PROSECUTION

If, after further prosecution, the application is found to be allowable, all protesters still participating at that time will be notified thereof and the application will be forwarded to the Patent Issue Division. A decision of the primary examiner to allow an application will not be subject to petition by any protester.

Short Titles for International Trademark Classes

The United States Patent Office will, effective immediately, associate the following word titles with the respective international trademark class numbers:

GOODS

1 Chemicals
2 Paints
3 Cosmetics and cleaning preparations
4 Lubricants and fuels
5 Parmaceuticals
6 Metal goods
7 Machinery
8 Hand tools
9 Electrical and scientific apparatus
10 Medical apparatus
11 Environmental control apparatus
12 Vehicles
13 Firearms
14 Jewelry
15 Musical instruments
16 Paper goods and printed matter
17 Rubber goods
18 Leather good
19 Non-metallic building materials
20 Furniture and articles not otherwise classified
21 Housewares and glass
22 Cordage and fibers
23 Yarns and threads
24 Fabrics
25 Clothing
26 Fancy goods
27 Floor coverings
28 Toys and sporting goods
29 Meats and processed foods
30 Staple foods
31 Natural agricultural products
32 Light beverages
33 Wines and spirits
34 Smokers' articles

SERVICES

35 Advertising and business
36 Insurance and financial
37 Construction and repair
38 Communication
39 Transportation and storage
40 Material treatment
41 Education and entertainment
42 Miscellaneous

These short titles are not an official part of the international classification. Their purpose is to provide a means by which the general content of numbered international classes can be quickly identified. Therefore the titles selected consist of short terms which generally correspond to the major content of each class but which are not intended to be more than merely suggestive of the content. Because of their nature these titles will not necessarily disclose the classification of specific items. The titles are not designed to be used for classification but only as information to assist in the identification of numbered classes. For determining classification of particular goods and services and for full disclosure of the contents of international classes, it is necessary to refer to the Alphabetical List of Goods and Services and to the names of international classes and the explanatory notes in the volume entitled "International Classification of Goods and Services to Which Trade Marks Are Applied," published by the World Intellectual Property Organization (WIPO). The full names of international classes appear also in Section 6.1 of the Trademark Rules of Practice.

The short titles are being printed in the OFFICIAL GAZETTE in association with the international class numbers under MARKS PUBLISHED FOR OPPOSITION, Sections 1 and 2, under TRADEMARK REGISTRATIONS ISSUED, PRINCIPAL REGISTER, Section 1, and under SUPPLEMENTAL REGISTER, Sections 1 and 2.

Adoption of the international classification by the United States as its system of classification was announced in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).

Date: June 18, 1974.

Application in more than one class

SN 2,381. Fieldcrest Mills, Inc., Eden, N.C. Filed Oct. 1, 1973.

Fieldcrest

Owner of Reg. Nos. 436,239 and 500,882.

Class 24

For Toweling, Bedspreads, Table Covers, Draperies, Pillow Shams, Sheets and Pillowcases, Blankets, Bath Mats, Lid Covers, Tank Sets, Shower Curtains, Placemats, and Curtains (Prior U.S. Cl. 42).
First use Apr. 4, 1972.

Class 27

For Bath Rugs and Bath Carpeting (Prior U.S. Cl. 42).
First use Apr. 2, 1972; May 26, 1942, in a different form.

SN 2,398. Fieldcrest Mills, Inc., Eden, N.C. Filed Oct. 1, 1973.

St. Mary's

Owner of Reg. Nos. 533,859, 747,914, and others.

Class 24

For Toweling, Bedspread, Table Covers, Draperies, Pillow Shams, Sheets and Pillowcases, Blankets, Bath Mats, Lid Covers, Tank Sets, Shower Curtains, Placemats, and Curtains (Prior U.S. Cl. 42).
First use Apr. 4, 1972.

Class 27

For Bath Rugs and Bath Carpeting (Prior U.S. Cl. 42).
First use Apr. 11, 1972; Apr. 26, 1972, in a different form.

SN 4,176. Marson Corporation Chelsea, Mass. Filed Oct. 23, 1973.

MR. FIX

Class 6

For Rivets (Prior U.S. Cl. 13).

Class 8

For Rivet Setting Tools (Prior U.S. Cl. 23).
First use Nov. 15, 1965.

SN 8,923. Bristol-Myers Company, New York, N.Y. Filed Dec. 17, 1973.

SWEET, CLEAN AND DRY

Applicant disclaims the word "Dry" apart from the mark as shown.

Class 3

For Antiperspirant (Prior U.S. Cl. 51).

Class 5

For Personal Deodorant (Prior U.S. Cl. 51).
First use Nov. 9, 1973.

SECTION 2.—INTERNATIONAL CLASSIFICATION

Application in one class

Class 1

SN 3,208. Ashland Oil, Inc., Ashland, Ky. Filed Oct. 10, 1973.

SL-90

For Carbon Black for Industrial Use (Prior U.S. Cl. 6).
First use Feb. 20, 1973.

SN 4,687. Miles Laboratories, Inc., Elkhart, Ind. Filed Oct. 26, 1973.

MUSTIX

For Chemical Reagent Test for Total Acidity for Use in Fermentation of Wine (Prior U.S. Cl. 6).
First use Sept. 10, 1973.

SN 4,905. Marine Colloids, Inc., Rockland, Maine. Filed Oct. 29, 1973.

mci

For Gel Forming Materials Such as Agarose in Bulk Form and Agarose Film Used for Electrophoretic Separations and for Bioassay Tests (Prior U.S. Cl. 6).
First use Jan. 31, 1973.

SN 5,152. Polymer Industries, Inc., Springdale, Conn. Filed Oct. 31, 1973.

ALUFLEX

For Adhesives for Attaching Metallic Foil to Plastic Films (Prior U.S. Cl. 5).
First use Aug. 27, 1973.

Class 3

SN 204. Maybelline Co., Alsip, Ill. Filed Sept. 5, 1973.

NAIL SAVIOUR

Without waiving any common law rights, applicant disclaims the word "Nail" apart from the mark as shown.
For Nail Strengthener and Color (Prior U.S. Cl. 51).
First use May 30, 1973.

SN 799. Estee Lauder, Inc., New York, N.Y. Filed Sept. 13, 1973.

azurée

Owner of Reg. Nos. 888,797, 889,470, and 900,437.
